INDEX

ADOLPH, E. F. The skin and the kidneys as regulators of the water content of frogs, 214.

Adrenal gland, effects of feeding parts of, to rats, 268.

—— secretion, effect of nicotin, cystosin, lobelin, coniin, piperidin and quaternary ammonias on, 551.

—— —— produced by asphyxia, 538.

Adrenalin and decerebrate rigidity, 207.

——, effect of, on coronary circulation, 508.

——, —— ——, on temperature of skeletal muscle, 213.

AGASSIZ, A. See CHURCHILL and AGASSIZ, 6.

Age, effect of, on hemoglobin of striated muscle, 693.

Albuminuria, studies in, 190.

Alcohol, effect of, on rat, 200.

Altitudes, high, respiratory changes during an airplane flight to, 354.

AMBERG, S. and F. SAWYER. Studies on Thiry-Vella fistula in dogs, 197.

—— —— ——. The rate of filtration of some aqueous protein solutions, 197.

Anemia, effect of, on hemoglobin of striated muscle, 708.

—— following gastrectomy, 189.

Anesthesia, amytal, and carbohydrate metabolism, 293.

Anesthetics, effect of, on sugar metabolism and catalase content of unicellular organisms, 229.

Asphyxia, adrenal secretion produced by, 538.

AUSTIN, W. C. and T. E. BOYD. On the nature of urinary glucose, 627.

BACHEM, A. See FISHER, GROOT and BACHEM, 230, 299.

BALDES, E. J. See MANN, SHEARD, BOLLMAN and BALDES, 306.

——. See SHEARD, BALDES, MANN and BOLLMAN, 577.

BALDWIN, F. M. Some observations concerning metabolic rate in turtles, Chrysemys marginata belli and Chelydra serpentina (Linn), 196.

BANUS, M. G. Method for equilibrating blood with frequently changing tensions of alveolar CO_2, 216.

——. See WIGGERS and BANUS, 215.

BARER, A. See GIBSON, GREER and BARER, 188.

BARLOW, O. W. See LUCKHARDT, BARLOW and WEAVER, 182.

Baths, effects of, on man, 35.

BAZETT, H. C. and B. MCGLONE. Temperature gradients in the tissues in the limbs in man, 224.

BEARD, H. H. Studies in the nutrition of the white mouse, 206.

BELDING, D. L. and L. C. WYMAN. The rôle of the suprarenal gland in the natural resistance of the rat to diphtheria toxin, 191.

BELL, F. K. See MACHT, BELL and ELVERS, 210.

BENEDICT, E. B. See MCIVER, REDFIELD and BENEDICT, 92.

BERGLUND, H. and W. SCRIVER. Studies in albuminuria, 190.

BERNER, G. E., C. C. GARRETT, D. C. JONES and R. J. NOER. The effect of external temperature on second wind, 586.

Bile pigment from hemoglobin, 306.

Bilirubin, spectrophotometric determinations of, 577.

BISHOP, G. H., J. ERLANGER and H. S. GASSER. The record of the action potential of nerve at the site of stimulation, 204.

——. See ERLANGER, BISHOP and GASSER, 203.

BLATHERWICK, N. R. See SAHYUN and BLATHERWICK, 677.

BLODINGER, I., H. E. KLEBANOFF and H. LAURENS. Suprarenal transplantation in the dog, 151.

Blood, acid-base balance of, in diabetes, 188.
—— anticoagulant, protein fraction of fibrinogen as, 651.
—— calcium changes in reproductive cycle, 660.
—— —— in direct irradiation of blood, 54.
—— cells and platelets in vitamin-A deficiency, 145.
—— changes and experimental cretinism, hyperthyroidism and myxedema, 225.
—— clotting in hemophilia, 632.
—— —— in peptone shock, 642.
—— coagulation, mammalian, rôle of platelets in, 190.
—— ——, rôle of calcium in, 186.
—— corpuscle volume, eriometer, 189.
——, effects of hot baths on, 35.
——, gaseous exchange between, and lumen of gut, 92.
—— hemoglobin, 685.
——, isomer of d-glucose in, 59.
——, methods of equilibrating, with frequently changing tensions of alveolar CO_2, 216.
—— pressure response of pituitary extract, 185.
—— —— sounds in man, 247.
Blood-volume in vitro, dye-methods for, 497.
Blumenstock, J., W. R. Tweedy and L. Brannon. Additional observations on Eck-fistula thyroparathyroidectomized dogs, 194.
Bollman, J. L. See Mann and Bollman, 179.
——. See Mann, Bollman and Sheard, 226.
——. See Mann, Sheard, Bollman and Baldes, 306.
——. See Sheard, Baldes, Mann and Bollman, 577.
Bourquin, H. Studies in experimental diabetes insipidus, 181.
Bowen, B. D. and M. E. Carmer. The effect of a standard exercise upon the oxygen consumption of normal, over-weight and chronically ill individuals, 180.
Boyd, J. D. See Hines, Boyd and Leese, 293.
Boyd, T. E. See Austin and Boyd, 627.
Boyden, E. A. See Whitaker and Boyden, 199.
Brain stem, studies of, 284.
Brannon, L. See Blumenstock, Tweedy and Brannon, 194.
——. See Luckhardt, Waud and Brannon, 228.
Bronk, D. W. and R. Gesell. Electrical conductivity, electrical potential and hydrogen ion concentration measurements on the submaxillary gland of the dog recorded with continuous photographic methods, 179.
Brooks, M. M. Studies on the permeability of living cells. VI. The penetration of certain oxidation-reduction indicators as influenced by pH; estimation of the rH of Valonia, 360.
——. The effects of pH, light and other factors on the penetration of 2,-6,-dibromo phenol indophenol and other dyes into a living cell, 190.
——. The permeability of protoplasm to ions, 116.
Brunswick, D. See Davis, Forbes, Brunswick and Hopkins, 448.
Buckner, G. D., J. H. Martin and A. M. Peter. Calcium and phosphorus content of strong and weak chicks from hens with and without calcium carbonate in diet, 28.
Bugbee, E. P. and A. Simond. The influence of testes in metabolism, 181.
Burge, W. E. The effect of anesthetics on the sugar metabolism and catalase content of unicellular organisms, 229.
——. The effect of insulin, thyroxin and temperature on the sugar metabolism of unicellular organisms, 230.
——. The seasonal variation in the catalase content of warm-blooded animals and evergreen trees, 229.
Burke, H. E. The rôle of platelets in mammalian blood coagulation, 190.

Burtness, K. E., M. J. Corey, E. Maplesden and M. H. Olesen. Martin's strength test in normal children, 232.

Calcium and phosphorus in strong and weak chicks, 28.
——, blood, in direct irradiation of blood, 54.
—— carbonate in diet of hens, effect of, on chicks, 28.
Carbohydrate metabolism, amytal anesthesia and, 293.
—— ——, phosphate and, 525.
Cardiac output of dog, 178.
Carman, G. G. and H. H. Mitchell. Estimation of the surface area of the white rat, 380.
——. See Mitchell and Carman, 385, 398.
Carmer, M. E. See Bowen and Carmer, 180.
Caskey, M. W. and E. J. Humel. Effect of adrenalin on the temperature of skeletal muscle after stopping the venous blood-flow through the liver and after stopping both venous and arterial blood-flow through the liver, 213.
Cassidy, G. J., S. Dworkin and W. H. Finney. The action of insulin on the domestic fowl, 189.
Castle, W. B. See Himwich and Castle, 188.
Catalase of warm-blooded animals and evergreen trees, 229.
Cattell, McK. On the functional significance of the double innervation of the gastrocnemius muscle of the frog, 217.
——. Sympathetic responses to repeated epinephrin injections, 217.
Cells, living, permeability of, 360.
Chaikoff, I. L., J. J. R. Macleod, W. W. Simpson and J. Markowitz. The fate of depancreatized dogs kept alive with insulin, 210.
Chambers, W. H. Blood sugar and urinary D:N ratio in the hours following pancreatectomy, 205.
Churchill, E. D. and A. Agassiz. A method for separating the air breathed by the right and left lungs, together with the effect of pulmonary circulatory changes on this divided breathing, 6.
Circulation, coronary, effect of adrenalin on, 508.
Clarke, R. W. See Schneider and Clarke, 354.
Collip, J. B. A study of parathyroidectomized rabbits, 219.
——. The production of some of the phenomena peculiar to parathyroid over-dosage in dogs by means of certain inorganic salts, 472.
Compression sounds of Korotkov, 191.
Coombs, H. C. Changes in rate of the denervated heart during bulbar anemia, after excision of the adrenals, 192.
Corey, M. J. See Burtness, Corey, Maplesden and Olesen, 232.
Corn kernel, nutritive value of layers of, 237.
Coronary arteries, action of adrenalin and acetyl-cholin on, 231.
Crile, G. H. See Crile, Rowland and Crile, 216, 320.
Crile, G. W., A. F. Rowland and G. H. Crile. Electric capacity of animal tissues under normal and pathological conditions, 216, 320.

Damez, M. K., D. Mathis and M. Murray. Schneider's and Crampton's tests in athletic and unathletic girls, 233.
Danzer, C. S. The treatment of pleural effusions by the oral administration of thyroid or the intravenous injection of hypertonic saline solution, 197.
Davis, H., A. Forbes, D. Brunswick and A. M. Hopkins. Studies of the nerve impulse. II. The question of decrement, 448.
Dawson, A. B. and A. C. Ivy. Contributions to the physiology of the gastric secretion. X. Formation of hydrochloric acid by the gastric mucosa, 158.

DE BOER, S. On the ventricular electrogram of the frog's heart obtained through indirect leads, 1.
Depancreatised dogs, effect of glucose on phosphate excretion in, 525.
Diabetes insipidus, experimental, 181.
Diet, reproduction and rearing of young, 325, 339.
DOUGHERTY, J. E. Egg yolk as a source of the anti-scorbutic vitamin, 265.
DUNN, J. W. See LANDIS, LONG, DUNN, JACKSON and MEYER, 35.
DURRANT, E. P. The effect of hysterectomy on the estrous cycle of the white rat, 234.
DWORKIN, S. See CASSIDY, DWORKIN and FINNEY, 189.
Dye-methods for blood-volume in vitro, 497.
Dyes, effects of various factors on penetration of, 190.

ECK-FISTULA thyroparathyroidectomized dogs, 194.
—— —— dogs, chronic meat intoxication in, 219.
EDWARDS, D. J. and I. PAGE. Some effects of parathyroid extract (Collip) on heart function, 207.
Egg yolk as source of anti-scorbutic vitamin, 265.
Electric capacity of animal tissues, 320.
ELSBERG, C. A. and F. H. PIKE. Studies on epilepsy. III. The influence of a general increase or diminution of intracranial pressure upon the susceptibility of animals to convulsive seizures, 593.

CONTENTS

No. 1. March, 1926

On the Ventricular Electrogram of the Frog's Heart Obtained Through Indirect Leads. *S. de Boer* 1

A Method for Separating the Air Breathed by the Right and Left Lungs, together with the Effect of Pulmonary Circulatory Changes on this Divided Breathing. *Edward D. Churchill and Anna Agassiz* 6

The Effect of Feeding Thyroid Extract on Gastric Secretion. *Charlotte Truesdell* 20

Calcium and Phosphorus Content of Strong and Weak Chicks from Hens with and without Calcium Carbonate in Their Diet. *G. Davis Buckner, J. Holmes Martin and A. M. Peter* 28

Studies on the Effects of Baths on Man. III. Effects of Hot Baths on Respiration, Blood and Urine. *E. M. Landis, W. L. Long, J. W. Dunn, C. L. Jackson and U. Meyer* 35

Regeneration of Pancreatic Tissue from the Transplanted Pancreatic Duct in the Dog. *J. W. Shaw and E. O. Latimer* 49

Studies on the Physiological Action of Light. VII. Blood Calcium in Direct Irradiation of Blood. *C. I. Reed and W. R. Tweedy* 54

A Critical Study of the Evidence for the Presence of an Isomer of d-Glucose in Blood. *Maurice B. Visscher* 59

Studies on the Thyroid Apparatus. XXIX. The Rôle of the Thyroid Apparatus in Growth. *Frederick S. Hammett* 69

Gaseous Exchange Between the Blood and the Lumen of the Stomach and Intestines. *Monroe A. McIver, Alfred C. Redfield and Edward B. Benedict* 92

On the Nature of Inhibition in Pennatula. *A. R. Moore* 112

The Permeability of Protoplasm to Ions. *Matilda Moldenhauer Brooks* 116

An Experimental Study of Tonus in Skeletal Muscles as Related to the Sympathetic Nervous System. *Albert Kuntz and Alver H. Kerper* 121

Blood Counts in Vitamin-A Deficiency Disease with Especial Reference to the Platelets. *Ernest H. Falconer with the technical assistance of Glyndon Peachey* 145

Suprarenal Transplantation in the Dog. *I. Blodinger, H. E. Klebanoff and Henry Laurens* 151

Contributions to the Physiology of the Gastric Secretion. X. Formation of Hydrochloric Acid by the Gastric Mucosa. *Alden B. Dawson and A. C. Ivy* 158

The Heat Liberated by the Beating Heart. Fifth Communication. The Thermocardiogram of Limulus Polyphemus. *Charles D. Snyder* .. 170

Proceedings of American Physiological Society 178

No. 2. April, 1926

The Nutritive Value of Various Layers of the Wheat and Corn Kernel. *Aniela Klein, Benjamin Harrow, Louis Pine and Casimir Funk* 237

The Nature and Time Relations of the Compression Sounds of Korotkov in Man. *Horace Marshall Korns* 247
Egg Yolk as a Source of the Anti-Scorbutic Vitamin. *J. E. Dougherty* ... 265
Effects Obtained from Feeding Fresh Adrenal Cortex, Medulla and Whole Gland to the Standard White Rat. *Earl B. McKinley and N. F. Fisher* 268
Studies of the Brain Stem. X. The Conditions under Which Extract of the Posterior Lobe of the Hypophysis Causes an Increase in Body Temperature. *Fred T. Rogers* 284
The Effect of Amytal Anesthesia upon the Response to Intravenous Injection of Glucose. *H. M. Hines, J. D. Boyd and C. E. Leese* 293
The Effects of X-Ray on the Pancreas. *N. F. Fisher, J. T. Groot and A. Bachem* 299
The Formation of Bile Pigment from Hemoglobin. *Frank C. Mann, Charles Sheard, Jesse L. Bollman and Edward J. Baldes* 306
Hydrogenated Vegetable Oil as a Source of Vitamin E. *Cornelia Kennedy and Leroy S. Palmer* 316
The Electric Capacity of Animal Tissues under Normal and Pathological Conditions. Preliminary Report. *G. W. Crile, Amy F. Rowland and G. H. Crile* 320
Diet in Relation to Reproduction and Rearing of Young. I. Observations on the Existence of Vitamin E. *V. E. Nelson, R. L. Jones, V. G. Heller, T. B. Parks and E. I. Fulmer* 325
Diet in Relation to Reproduction and Rearing of Young. II. *A. E. Guest, V. E. Nelson, T. B. Parks and E. I. Fulmer* 339
X-Ray Observations of Hunger Contractions in Man. *F. T. Rogers and C. L. Martin* 349
Respiratory Changes During an Airplane Flight to High Altitudes. *Edward C. Schneider and Robert W. Clarke* 354
Studies on the Permeability of Living Cells. VI. The Penetration of Certain Oxidation-Reduction Indicators as Influenced by pH; Estimation of the rH of Valonia. *Matilda Moldenhauer Brooks* 360
Estimation of the Surface Area of the White Rat. *G. G. Carman and H. H. Mitchell* 380
Effect of Excessive Amounts of Vitamin B on the Basal Metabolism of Rats of Different Ages. *H. H. Mitchell and G. G. Carman* 385
The Composition of the Gains in Weight and the Utilization of Food Energy in Growing Rats. *H. H. Mitchell and G. G. Carman* 398
The Action of Acids on Turtle Heart Muscle with Reference to the Penetration of Anions. *Homer W. Smith* 411
Studies of the Nerve Impulse. II. The Question of Decrement. *H. Davis, A. A. Forbes, D. Brunswick and A. McH. Hopkins* 448
The Production of Some of the Phenomena Peculiar to Parathyroid Overdosage in Dogs by Means of Certain Inorganic Salts. *J. B. Collip* 472
The Site of Reabsorption in the Kidney Tubule of Necturus. *H. L. White and Francis O. Schmitt* 483

No. 3. May, 1926

Dye-Methods for Determining the Blood-Volume Tested in Vitro. *J. Lindhard* 497

XVI. The Effect of Adrenalin upon the Coronary Circulation. *Charles M. Gruber and Samuel J. Roberts*..... 508
The Relationship of Phosphate and Carbohydrate Metabolism. III. The Effect of Glucose on the Excretion of Phosphate in Depancreatised Dogs. *J. Markowitz*..... 525
Studies on the Innervation of Smooth Muscle. IV. Functional Relations Between the Lower End of the Esophagus and Stomach of the Cat. *Harry O. Veach*..... 532
Adrenal Secretion Produced by Asphyxia. *B. A. Houssay and E. A. Molinelli*..... 538
Effect of Nicotin, Cystosin, Lobelin, Coniin, Piperidin and Quartenary Ammonias on Adrenal Secretion. *B. A. Houssay and E. A. Molinelli*. 551
Spectrophotometric Determinations of Biliburin. *Charles Sheard, Edward J. Baldes, Frank C. Mann and Jesse L. Bollman*..... 577
The Effect of External Temperature on Second Wind. *G. E. Berner, C. C. Garrett, D. C. Jones and R. J. Noer*..... 586
Studies on Epilepsy. III. The Influence of a General Increase or Diminution of Intracranial Pressure upon the Susceptibility of Animals to Convulsive Seizures. *Charles A. Elsberg and Frank H. Pike*..... 593
A Study of the Vago-Enteric Mechanism by Means of Nicotin. *J. E. Thomas and Albert Kuntz*..... 598
A Study of Gastro-Intestinal Motility in Relation of the Enteric Nervous System. *J. E. Thomas and Albert Kuntz*..... 606
On the Nature of Urinary Glucose. *W. C. Austin and T. E. Boyd*..... 627
Blood Clotting Studies in Hemophilia. *C. A. Mills*..... 632
Explanation of the Blood Clotting Change Observed in Peptone Shock in the Dog. *C. A. Mills*..... 642
The Manner of Action of the Protein Fraction of Tissue Fibrinogen as a Blood Anticoagulant. *C. A. Mills*..... 651
Studies on the Physiology of Reproduction in Birds. XXI. Blood Calcium Changes in the Reproductive Cycle. *Oscar Riddle and Warren H. Reinhart*..... 660
The Rabbit Method of Standardizing Insulin. *Melville Sahyun and N. R. Blatherwick*..... 677
The Identity of Muscle Hemoglobin and Blood Hemoglobin. *R. P. Kennedy and G. H. Whipple*..... 685
The Hemoglobin of Striated Muscle. I. Variations Due to Age and Exercise. *G. H. Whipple*..... 693
The Hemoglobin of Striated Muscle. II. Variations Due to Anemia and Paralysis. *G. H. Whipple*..... 708
Index..... 715
